Plastics, Rubber and Composites Processing and Applications **18** (1992) 327–329

Plastics, Rubber and Composites Processing and Applications

CONTENTS OF VOLUME 18

Number 1

Papers presented at the Control of Noise and Vibration in Buildings Discussion Meeting, held 25 October 1990, PRI, London
Guest Editor: A. H. Muhr

Guest Editorial
Control of noise and vibration in buildings. 1
A. G. THOMAS (UK)
A comparison of rubber and metal springs for vibration isolation . . . 3
A. H. MUHR (UK)
The design of resilient mounting systems to control machinery noise in buildings 9
A. N. MAW (UK)
The vibration isolation of building structures 17
R. WALKER & C. D. MATHERS (UK)
The use of rubber and plastic for sound insulation of party walls and floors 31
R. J. M. CRAIK (UK)

Abrasion of swollen rubber vulcanizates 35
P. THAVAMANI & ANIL K. BHOWMICK (India)
Impact modification of polypropylene with *trans*-polyoctenamer elastomer . 47
F. H. AXTELL, D. AUTSAWASATAIN & K. RUJIRANONTAPONG (Thailand)
Forthcoming meetings 59

Number 2

Guest Editorial
Liquid transport processes in polymeric materials. Modelling and industrial applications 63
JEAN-MAURICE VERGNAUD (France)
The deterioration of thermoplastic motorcycle helmet shells after outdoor exposure 67
A. DENNING & N. J. MILLS (UK)
A study of the impact behaviour of injection moulded polypropylene using two different modes of testing. 79
A. M. CUNHA, A. S. POUZADA (Portugal) & R. J. CRAWFORD (UK)
Effect of grain morphology on the diffusion of residual vinyl chloride from suspension PVC 91
A. G. FARADAY & A. COURTIS (UK)
Modelling the cure of thermosetting polymers. Effect of the coefficient of surface heat transfer 95
K. AZAAR, A. EL BROUZI, R. GRANGER & J. M. VERGNAUD (France)

Plastics, Rubber and Composites Processing and Applications (**18**) (1992) — © 1992 The Plastics and Rubber Institute, England. Printed in Great Britain.

The effect of knife shape on the knife coating process 103
JIN KUK KIM (Korea)
The effect of the molar mass of polyisobutylene on the morphology and mechanical properties of its blends and composites with the polypropylene matrix. 109
IVAN KELNAR, IVAN FORTELNÝ & JOSEF BALDRIAN (Czechoslovakia)
Forthcoming meetings 121

Number 3

SPECIAL ISSUE: DYNAMIC MECHANICAL AND DIELECTRIC THERMAL ANALYSIS

Guest Editorial
Milestones in DMTA instrumentation 125
R. E. WETTON (UK)
The role of dielectric and dynamic–mechanical techniques in the process monitoring and environmental resistance control of polymeric matrices for composites 127
A. APICELLA, A. D'AMORE, G. MENSITIERI & L. NICOLAIS (Italy)
α and β Mechanical relaxations in amorphous polymers: Rubber–glass transition and physical ageing. 139
J. PEREZ, E. MUZEAU & J. Y. CAVAILLÉ (France)
A deformation model of polycarbonate extended to the loss curve in the α transition range 149
J. C. BAUWENS (Belgium)
Influence of carbon black filler types on dynamic mechanical properties of certain underwater polychloroprene rubber vulcanizates 155
V. B. PILLAI & J. NARAYANA DAS (India)
Dynamic mechanical properties of triblock ionomers of polystyrene and poly(sodium methacrylate) 161
ALAIN DESJARDINS & ADI EISENBERG (Canada)
Relaxation spectra of polymer composites: the main relaxation in poly (methyl acrylate) reinforced with continuous Kevlar aramid fibres 169
J. L. GÓMEZ RIBELLES, M. MONLEÓN PRADAS, JAS MÁS ESTELLÉS, J. M. MESEGUER DUEÑAS & F. ROMERO COLOMER (Spain)
The interpretation of physical ageing in creep and DMTA from Sequential Ageing Theory 181
N. G. McCRUM (UK)
Forthcoming meetings 193

Number 4

SPECIAL ISSUE IN MEMORY OF THE LIFE AND WORK OF LESLIE PHILLIPS

Leslie Nathan Phillips OBE (1922–1991)— An appreciation by Anthony Kelly 197

Guest Editorial
Composites — a survey of their development in major structural applications . 201
T. SHARPLES (UK)
Resistance welding of continuous carbon fiber/polypropylene composites. . 205
M. HOU & K. FRIEDRICH (Germany)
A model for the continuous impregnation of fibre tows in resin baths with pins 215
H. W. CHANDLER, B. J. DEVLIN & A. G. GIBSON (UK)

The surface treatment of carbon fibres by electro-polymerization and plasma polymerization 221
B. HARRIS, O. G. BRADDELL (UK), C. LEFEBVRE & J. VERBIST (Belgium)
The design and manufacture of a thermoplastic composite gear selector for a Formula 1 racing car 241
F. L. MATTHEWS & J. J. McQUILLIAM (UK)
Thermoplastic structural composites in service 249
F. N. COGSWELL (UK) & D. C. LEACH (USA)
Controlled cross-linking of high modulus polyethylene fibre 255
D. W. WOODS & I. M. WARD (UK)
The tensile and fatigue behaviour of carbon fibres 263
A. R. BUNSELL & A. SOMER (France)
An experimental and numerical investigation into the thermal behaviour of a high technology film-stacked composite for space satellite systems . . 269
L. HOLLOWAY, M. O'NEILL & A. T. THORNE (UK)

Number 5

Guest Editorial
Cure of thermosetting resins. Modelling and experiments 277
JEAN BOUZON & JEAN-MAURICE VERGNAUD (France)
The environmental creep rupture behaviour of polyimide films produced using pyromellitic dianhydride (PMDA) and 3,4,3′,4′ biphenyl tetra-carboxylic dianhydride (BPDA) precursors 281
D. R. MOORE, M. S. SEFTON & J. M. SMITH (UK)
Volumetric changes in injection moulded polypropylene compounds . . 289
Z. CHEN (People's Republic of China) & J. R. WHITE (UK)
Multivariate statistical monitoring of polypropylene production 299
BERT SKAGERBERG, JARI LEHTINEN & JAN WIKLUND (Finland)
Stabilization of hydroxyl terminated polybutadiene: Estimation of residual antioxidant by fluorescence analysis. 307
EVA BERGGREN, JULIA LUCKI, BENGT STENBERG & ROLAND SANDÉN (Sweden)
A study of the flow behaviour of rubber compound melt through extrusion dies with different entry angles 311
J. Z. LIANG, Y. Q. HUANG, G. J. TANG (People's Republic of China) & J. N. NESS (Hong Kong)
The effect of the distribution of crosslink densities and carbon black between phases on physical properties of polyisoprene/polybutadiene blends 317
P. M. FOUCHE & W. J. McGILL (Republic of South Africa)

Book Reviews
An Introduction to Operations Management
(C. D. J. Waters. Addison-Wesley, Wokingham, 1991) reviewed by John King 323
Model Thermosets. A Handbook for Plastic Engineers, Molders, and Designers
(R. E. Wright. Hanser, Munich, Vienna, New York and Barcelona, 1991) reviewed by W. W. Wright 323
Plastics Additives Handbook (3rd Edition)
(Edited by R. Gächter & H. Müller. Hanser, Munich,1990) reviewed by P. R. Hornsby 324
Design Formulas for Plastics Engineers
(Natti S. Rao. Hanser, Munich, 1991) reviewed by R. J. Crawford . . 324
Forthcoming meetings 326
